WEDDING STATIONERY

www.heartsandtwine.com

WELCOME

Here at Hearts and Twine, in our York based studio, we believe that wedding stationery is the beginning of your wedding day magic!

Your love story is 'one of a kind' and your wedding invitations and wedding stationery should be no different. You've found the perfect venue, you've booked the date – now let us work with you so you can announce all the excitement to your friends and family.

Your journey will start on our online wedding stationery shop, where you can choose your favourite design. From our house collections to bespoke creations, we offer ranges to suit every style and budget. If your style is not there, then call us to discuss your ideas. You can work alongside the team throughout every stage of the process. Anything is possible!

Our endeavour is to make sure that your invitations don't go to print until you have fallen in love with them!

INVITATIONS

We are here to help you choose and personalise the perfect wedding invitation style and design just for you.

Our team goes above and beyond, carefully double checking every detail to make sure that your invitations surpass your expectations.

We have a sample page where you can order a sample of each part of a collection which will show you the exquisite quality, attention to detail and luxury digital print quality we offer. Here are a few of our favourite designs, but please go online to see more of our house collections. Don't forget our bespoke service is also available if you would like something truly unique.

Please email sales@heartsandtwine.com or visit www.heartsandtwine.com for more information.

RECEPTION STATIONERY

PLACE NAMES / MENUS

There are so many great ways of doubling up your menu with the place name. We can print each guest's name on the menu or you can have a place card attached to the menu.

TABLE NAME / NUMBERS

Choose from table names or table numbers and match the cards to rest of your stationery. Each of our beautiful wedding table cards are printed on both sides, enabling guests to see them wherever they are in the room.

ORDER OF SERVICE

We can produce order of service booklets or simply folded cards. The booklets will give your friends and family the information they need to follow the service and join in with any hymns. The order of service books are also a timeless keepsake for your guests to remember your special day.

THANK YOU CARDS

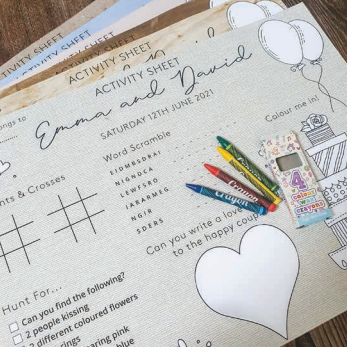

Once you've been on your Honeymoon it's time to reflect on the best day of your life. There's no better way to thank your guests

for their presence and gifts than a thank you card. You might have even received some of your professional photos back by this time so why not choose your favourite captured image from the day and use it for the front of the greeting card. A perfect way for people to remember your wedding day.

FAVOURS

Surprise your guests on your wedding day and show them how grateful you are with our gorgeous selection of wedding favours.

Choose from wedding sparkler cards to create the photographs. Scratch card holders personalised with your details. Thank you cards to sit on your tables with a personal message from you. Children's wedding activity sheets to keep the little ones amused during the wedding breakfast meal.

SEATING PLANS, WELCOME & ORDER OF THE DAY SIGNS

Let your guests know where they are sitting with one of our stylish and unique table plans. Our elegant seating plans come in all our collection styles and are personalised with your details.

Our creative welcome signs are the first piece of décor many guests will see when they arrive at your wedding. They create a taste of what style your guests can expect from your wedding.

We also produce the welcome signs with an order of the day which acts as an itinerary for your wedding. You can display times for the cake cutting and the first dance and a guide for meal times.

The plans and signs are printed on to the board for a quality a finish and can stand on its own or be placed on an easel.

Please email sales@heartsandtwine.com or visit www.heartsandtwine.com for more information.
